# | Concept

The Academy of Accountants represents a true breakthrough in Kuwait's financial sector, as it focuses on training and qualifying national talents while equipping the financial sector with skilled accounting and financial professionals.

The academy also emphasizes developing and enhancing the capabilities of recent graduates entering the workforce through theoretical programs and practical training conducted by top trainers and market specialists in the best companies in Kuwait.

the academy works to expand knowledge and skills by applying the best professional practices, organizing specialized training programs and courses, in addition to fostering an optimal work environment to achieve sustainable development.

# Objectives

The academy seeks to achieve several goals including.

Providing trained national talents for the financial sector

Qualifying recent graduates with the necessary knowledge and skills

**Reducing the cost  
and duration of  
internal training  
programs**

**Equipping participants  
with the latest  
financial concepts  
and knowledge**

**Supporting the state's  
efforts to employ  
citizens and enhance  
their contribution to  
national development**

**Offering professional  
training programs for  
recent graduates and  
facilitating their  
employment in financial  
institutions**

## Vision and Mission

The vision of the Academy is to become a primary source of knowledge and skill acquisition for recent Kuwaiti graduates entering the professional workforce. The mission focuses on preparing national human resources for integration into and contribution to national institutions through specialized and professional training programs in accounting sciences and applications.

# Training Programs

The Academy's graduate qualification program for the financial sector comprises six diverse courses carefully designed to provide participants with essential knowledge and specialized technical skills for effective and successful integration into the work environment. The courses include.

- 01 Financial Accounting**
- 02 Technical Skills - Mastering basic Microsoft Office programs**
- 03 Basics of Professional Etiquette - Workplace etiquette and teamwork skills**
- 04 Auditing Principles ( Internal and external Audit )**
- 05 Modern Accounting Systems**
- 06 Governmental Accounting - Including the governmental accounting system and differences between cash basis and accrual basis**
